Youth Voice, Wellbeing and Resilience

Girls Leadership Program

Description: The Girls Leadership Program is a multicultural youth engagement program to be delivered in the Northern and Western suburbs of Melbourne that aims to bring together young women aged 13-25 from diverse communities. The objective is to create a safe gathering space for young women who may be socially disengaged or disadvantaged, providing them with opportunities for social and community participation through personal and professional development. The program will focus on four thematic areas: education and training; career pathways; community participation; and health and wellbeing. The project will include interactive sessions, forums, workshops, excursions, sporting activities and opportunities to interact with mentors, peers, instructors, women in leadership positions and other professional speakers. The focus of the project is personal and professional development to ensure young girls have alternative programming outside the school setting. The project will be delivered under the four themes detailed above, with each theme to be covered over a 10-week period consisting of a 2-hour session once a week every Friday.
