

Vocational education and training (VET)

How VET works in Year 11 and 12

Easy Read version

**Your world.
Your VCE.**

Department
of Education

How to use this guide

The Victorian Department of Education wrote this guide.

When you read the word 'we', it means the Victorian Department of Education.

We wrote this information in an easy to read way.

We use pictures to explain some ideas.

Bold
Not bold

We wrote some important words in **bold**.

This means the letters are thicker and darker.

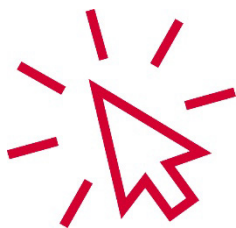

We explain what these bold words mean.

There is a list of these words on page **26**.

This is an Easy Read summary of another guide.

This means it only includes the most important ideas.

You can find the other guide on our website.

www.vic.gov.au/how-vocational-education-training-fits-into-year-11-12

You can ask for help to read this guide.

A friend, family member or support person might be able to help you.

This is a long document.

You don't need to read it all at once.

You can take your time.

What's in this guide?

About vocational education and training (VET) 5

What students can do with a VET course 7

How students can make money while they study 9

What VET courses students can study 10

Word list 26

About vocational education and training (VET)

Vocational education and training (VET) is skills training students can do for certain types of jobs.

Students can do VET as part of Year 11 and 12.

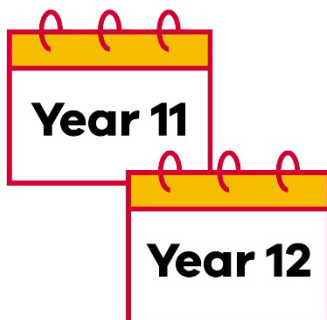

A VET course can make it easier for some people to find work as soon as they finish Year 12.

Students can study a VET course at:

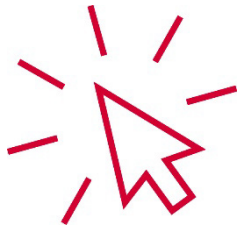

- their school
- or
- a training organisation – like a TAFE.

Students can add a VET course to their studies in Year 11 and 12.

Some schools might let students start a VET course in Year 10.

You can find out more about VET on the Victorian Curriculum and Assessment Authority (VCAA) website.

www.vcaa.vic.edu.au/studentguides/getvet/Pages/Index.aspx

VCAA is an organisation that makes sure students in Victoria:

- learn the right things
- take tests that show what they know.

What students can do with a VET course

Students can do a VET course as part of their **Victorian Certificate of Education (VCE)**.

The VCE is a certificate students can get if they:

- go to high school in Victoria
- and
- finish Year 11 and 12.

A VET course is also an important part of the **VCE Vocational Major**.

Students can learn in the VCE Vocational Major program for 2 years.

It gives students the skills and experience they might need after they finish Year 12 to:

- get work
- keep studying.

Students must do a VET course as part of their VCE Vocational Major.

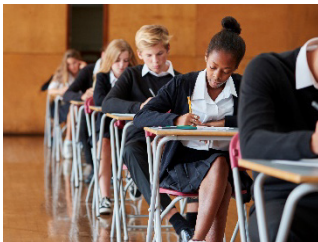

A VET course can also be a part of doing the **Victorian Pathways Certificate (VPC)**.

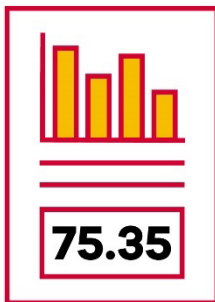

The VPC is a certificate students can study during Year 11 and 12 in Victoria.

Students can do the VPC if their school thinks it's the right course for them.

Some VET courses can also count toward a student's **Australian Tertiary Admission Rank (ATAR)**.

An ATAR is a number that scores a student against other students who studied in the same state.

An ATAR can be between 0 and 99.95.

How students can make money while they study

Some VET courses can include a **traineeship or apprenticeship**.

A traineeship or apprenticeship is when students learn how to do a job while they are at work.

This can let students:

- learn while they work
- work with professionals
- make money while they learn.

We call these 'school-based apprenticeships and traineeships' (SBAT).

Many students who do an SBAT stay on in their job as a full-time worker after they finish school.

You can find out more about SBATs on our website.

www.vic.gov.au/school-based-apprenticeships-and-traineeships

What VET courses students can study

There are many VET courses students can study.

Students can check with their school's **careers counsellor** to find out what VET courses they can do.

A careers counsellor is someone who gives students advice about:

- their future jobs
- the skills they will need.

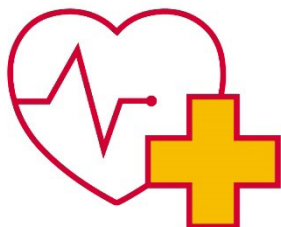

On the following pages, we describe the types of VET courses students can do.

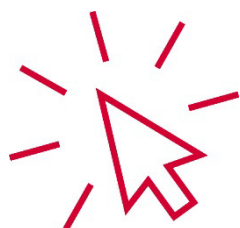

You do not have to read about all the VET courses.

You can just look at the courses your child is interested in.

Health

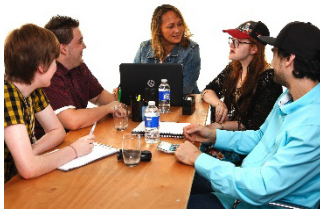

VET courses about health can help students get ready to work in some healthcare jobs.

You can find out more about VET courses about health on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/health.aspx

Community services and languages

VET courses can help students get ready to work in community services.

This includes:

- working in early childhood learning

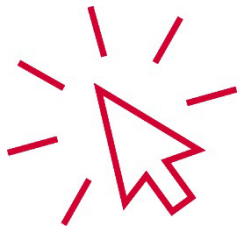

- **volunteer** work.

When someone volunteers, they:

- work but they don't get paid
- do work that helps other people.

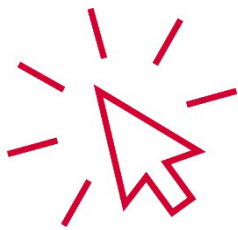

You can find out more about VET courses about community services on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/communityservices.aspx

VET courses can also help students:

- learn a language other than English
- get ready to use a language other than English in their job.

You can find out more about VET courses about languages on the VCAA website.

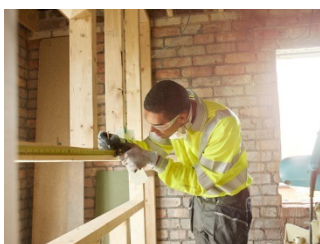

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/appliedlanguage.aspx

Building

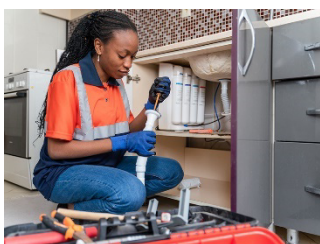

VET courses can help students get ready to work as a builder.

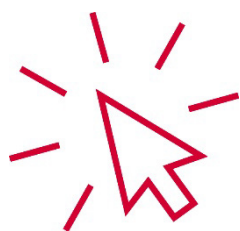

This includes courses about:

- building homes

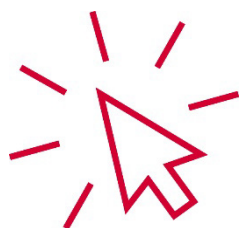

- plumbing – installing and fixing pipes.

You can find out more about VET courses about building on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/buildconst.aspx

You can find out more about VET courses about plumbing on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/plumbing.aspx

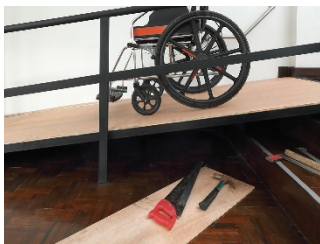

VET courses can also help students get ready to work in a job building things to support the community.

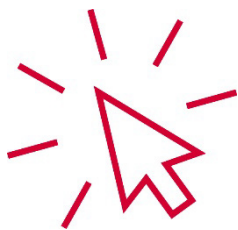

For example, how to build:

- roads and pathways

- buildings everyone can use.

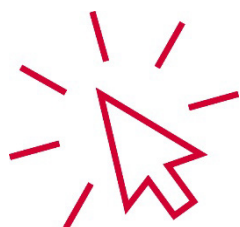

You can find out more about VET courses about building things that support the community on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/civilinfrastructure.aspx

Computers and technology

VET courses can help students get ready to work with technology that supports people to share and use information.

You can find out more about VET courses about this technology on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/idmt.aspx

VET courses can also help students get ready to work with groups of technology.

You can find out more about VET courses about groups of technology on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/integratedtech.aspx

Food and drinks

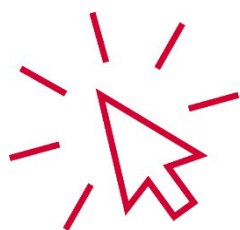

VET courses can help students get ready to work with food and drinks.

This includes:

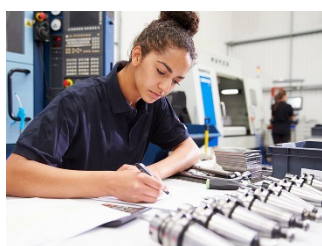

- making food and drinks
- working for a business that provides food and drinks.

You can find out more about VET courses about food and drink on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/hospitality.aspx

Engineering and clean energy

VET courses can help students get ready to work in a job planning and making new things, like buildings or machines.

This type of work is called engineering.

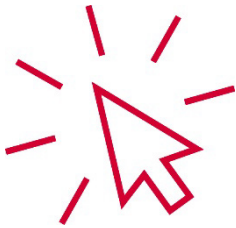

You can find out more about VET courses about engineering on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/engineering.aspx

VET courses can also help students get ready to work with energy that is good for the environment.

We call this clean energy.

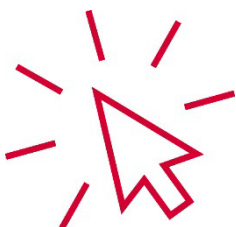

You can find out more about VET courses about clean energy on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/electricalindustry.aspx

VET courses can also help students get ready to work in a lab.

You can find out more about VET courses about working in a lab on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/laboratory.aspx

Vehicles

VET courses can help students get ready to work with and fix motor vehicles.

For example:

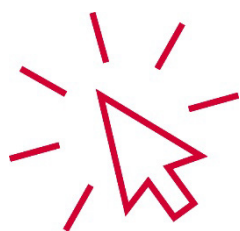

- cars

- motorbikes

- boats.

You can find out more about VET courses about working on and fixing vehicles on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/automotive.aspx

Natural environment and animal care

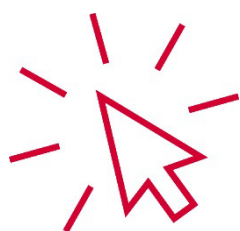

VET courses can help students get ready to work with:

- farming
- the **natural environment**.

Our natural environment includes things in our community such as:

- trees
- parks
- hills
- beaches.

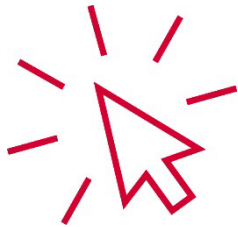

You can find out more about VET courses about farming and the natural environment on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/agrhorconlm.aspx

Students can study VET courses to help them get ready to work in roles that care for animals.

You can find out more about VET courses about animal care on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/animalstudies.aspx

Hair and beauty

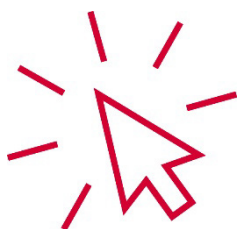

VET courses can help students get ready to work with hair and beauty.

This includes:

- cutting people's hair
- doing people's make-up.

You can find out more about VET courses about hair and beauty on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/hairbeauty.aspx

Creative work

VET courses can help students get ready to work in creative jobs.

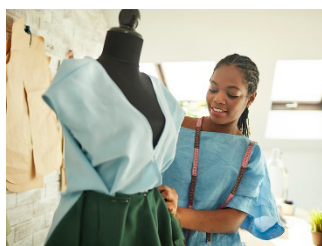

This includes jobs in:

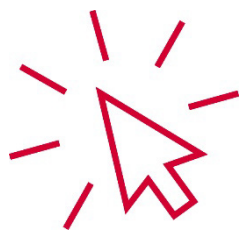

- TV and film

- video games

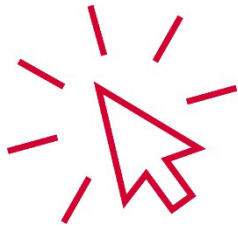

- fashion.

You can find out more about VET courses about TV and film on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/creativemedialmedia.aspx

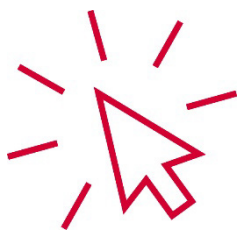

You can find out more about VET courses about fashion on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/appliedfashion.aspx

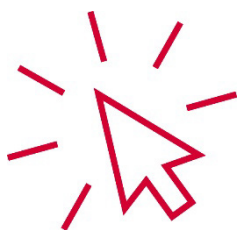

VET courses can also help students get ready to work in:

- dance
- music.

You can find out more about VET courses about dance on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/dance.aspx

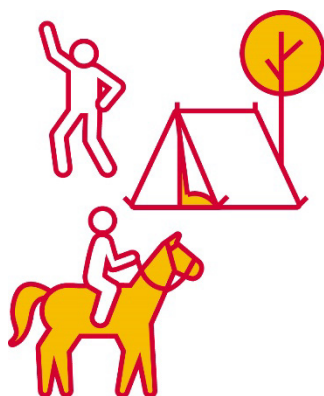

You can find out more about VET courses about music on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/musicindustry.aspx

Sport and recreational activities

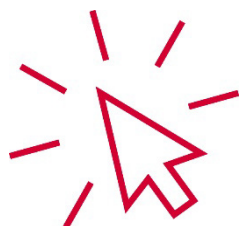

VET courses can help students get ready to work in sport and **recreational activities**.

A recreational activity is something a person does for fun.

It could be:

- dancing
- camping
- horse riding.

You can find out more about VET courses about sport and recreational activities on the VCAA website.

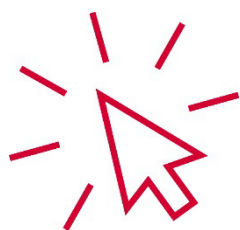

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/sportrecreation.aspx

Business

VET courses can help students get ready to:

- work in business
- start their own business.

You can find out more about VET courses about business on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/business.aspx

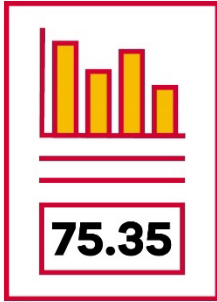

You can also find out more about VET courses about small businesses on the VCAA website.

www.vcaa.vic.edu.au/curriculum/vet/vce-vet-programs/Pages/smallbusiness.aspx

Word list

This list explains what the **bold** words in this fact sheet mean.

Australian Tertiary Admission Rank (ATAR)

An ATAR is a number that scores a student against other students who studied in the same state.

An ATAR can be between 0 and 99.95.

Careers counsellor

A careers counsellor is someone who gives students advice about:

- their future jobs
- the skills they will need.

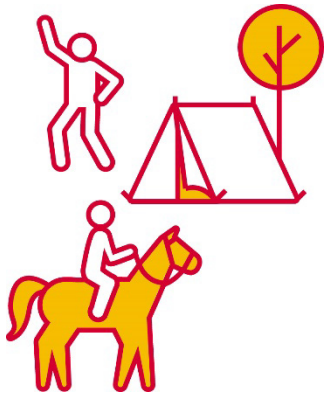

Natural environment

Our natural environment includes things in our community such as:

- trees
- parks
- hills
- beaches.

Recreational activity

A recreational activity is something a person does for fun.

It could be:

- dancing
- camping
- horse riding.

Traineeship or apprenticeship

A traineeship or apprenticeship is when students learn how to do a job while they are at work.

Victorian Certificate of Education (VCE)

The VCE is a certificate students can get if they:

- go to high school in Victoria
- and
- finish Year 11 and 12.

VCE Vocational Major

Students can learn in the VCE Vocational Major program for 2 years.

It gives students the skills and experience they might need after they finish Year 12 to:

- get work
- keep studying.

Victorian Pathways Certificate (VPC)

The VPC is a certificate students can study during Year 11 and 12 in Victoria.

Students can do the VPC if their school thinks it's the right course for them.

Vocational education and training (VET)

VET is skills training students can do for certain types of jobs.

Students can do VET as part of Year 11 and 12.

Volunteer

When someone volunteers, they:

- work but they don't get paid
- do work that helps other people.
