

# Appendix A – Documentation of the Development of the Hybrid Approach: Collaborative Process

This document summarises the collaborative planning activities that occurred during the development the *Water Sensitive Drainage and Flood Management Strategy for Fishermans Bend*, collaboratively developed by the Fishermans Bend Taskforce Drainage Working Group in late 2018.

**Table 1 Key workshops and meetings**

Activity	Description
Fishermans Bend Taskforce Drainage Working Group Meetings	<p>The project was undertaken collaboratively with all members of the Drainage Working Group (Melbourne Water, Fishermans Bend Taskforce (DELWP), City of Melbourne, City of Port Phillip, South East Water) with project management on behalf of the working group from provided by the CRCWSC.</p> <p>Weekly meetings were held for the duration of the project from Sep-Dec 2018 to discuss progress, guide delivery of technical work and resolve issues.</p>
Fishermans Bend Taskforce Steering Group Meetings	<p>The project was overseen by the Fishermans Bend Taskforce Sub-Committee (with representation from the organisations listed above). Three meetings were held during the project to steer the direction of the project and provide endorsement of various components of the strategy:</p> <p>30<sup>th</sup> August (At commencement of project)</p> <p>24<sup>th</sup> October (Initial options/thinking presented)</p> <p>6<sup>th</sup> December (Proposed strategy presented)</p>
Distributed storages case studies and cross-section development	<p>Co-development of street cross-sections that incorporated flood storage was an iterative design process requiring much collaboration between a range of disciplines/areas at GHD, CoPP, CoM and the Taskforce. This required an integration of the drainage strategy development process with the precinct planning and streetscape and open space design process at different levels of planning. This was a novel innovative process, undertaken in a short timeframe.</p> <p>The key workshops and working meetings facilitated by GHD included:</p> <p><b>Briefing and objective setting:</b></p> <p>7<sup>th</sup> Sep (GHD, CoM)</p> <p>10<sup>th</sup> Sep (GHD, CoPP)</p> <p>10<sup>th</sup> Sep (GHD, CRCWSC)</p>

Activity	Description
	<p><b>Opportunities/Constraints &amp; Case Study Selection Workshop:</b></p> <p>11<sup>th</sup> Sep (GHD, CoPP, CoM, FB TF, MWC, SEW)</p> <p><b>Case Study/Cross-Section Development:</b></p> <p>26<sup>th</sup> Sep (GHD, CoPP, CoM, FB TF)</p> <p>10<sup>th</sup> Oct (GHD, CoPP, CoM, FB TF, MWC)</p> <p>31<sup>st</sup> Oct (GHD, CoPP)</p> <p>2<sup>nd</sup> Nov (GHD, CoM)</p> <p>15<sup>th</sup> November (GHD, CoPP, CoM, FB TF, MWC)</p> <p><b>In addition, there was a further meeting facilitated by Tony Wong (CRCWSC):</b></p> <p>21<sup>st</sup> Nov (GHD, CoPP, CoM, FB TF, MWC, SEW)</p>
CRCWSC	Scoping workshop at MWC on 17 <sup>th</sup> Sep.
Permissible Uses Workshop	Full stakeholder workshop at MWC on 26 <sup>th</sup> Oct.

In addition, there were various meetings with the Fishermans Bend taskforce to ensure alignment with other planning processes, including the Infrastructure Contributions Plan and broader urban development issues.
