

# What to do when someone has been SPIKED...

## **S** See the harm

Look for drink spiking - alcohol is the number one drug used for sexual assault. Remember, the perpetrator is likely to be a friend or date.

## **P** Prioritise safety

Make sure the victim is safe. Offer to call someone they trust. If necessary, call an ambulance.

## **I** Inquire

Believe the victim.  
Ask them what they need.

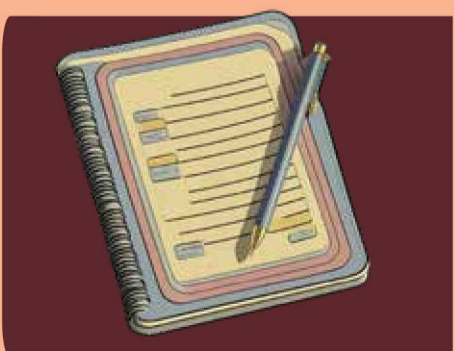

## **K** Kick start action

Respond to their needs.  
Organise safe transport home.

## **E** Enhance support

Give them information for support services.

## **D** Document

Record what happened.
