

The background of the entire page is a photograph showing a large number of aluminum beverage cans falling from a grey metal tray into a blue collection bin. The cans are in various colors, including red, blue, silver, and orange, and some have visible labels like 'Coca-Cola' and 'Carabao'. The scene is captured from a high angle, showing the cans in mid-air and a large pile of them at the bottom of the bin.

Annual Statutory Report

2023-24

CDS Vic is the fastest-growing, most convenient and accessible container deposit scheme in Australia. The success of CDS Vic is the result of shared commitment and dedication from our people, partners, industry and community stakeholders, along with the enthusiastic 'buy-in' from so many Victorians.

The Victorian Scheme has a unique structure with the State divided into three distinct zones. Each zone is operated by an experienced network operator: Visy in the north, Return-It in the east and TOMRA Cleanaway in the west. This structure enabled maximum accessibility and convenience and ensured a successful launch with hundreds of refund points being ready.

As Scheme Coordinator, our work represents an important step to transforming Victoria's waste and recycling system, contributing to a circular economy as well as adding social and economic value to communities.

In its first eight months, the Scheme returned more than \$62.8 million to Victorians - which is a lot of change - and created more than 500 jobs.

Executive Summary

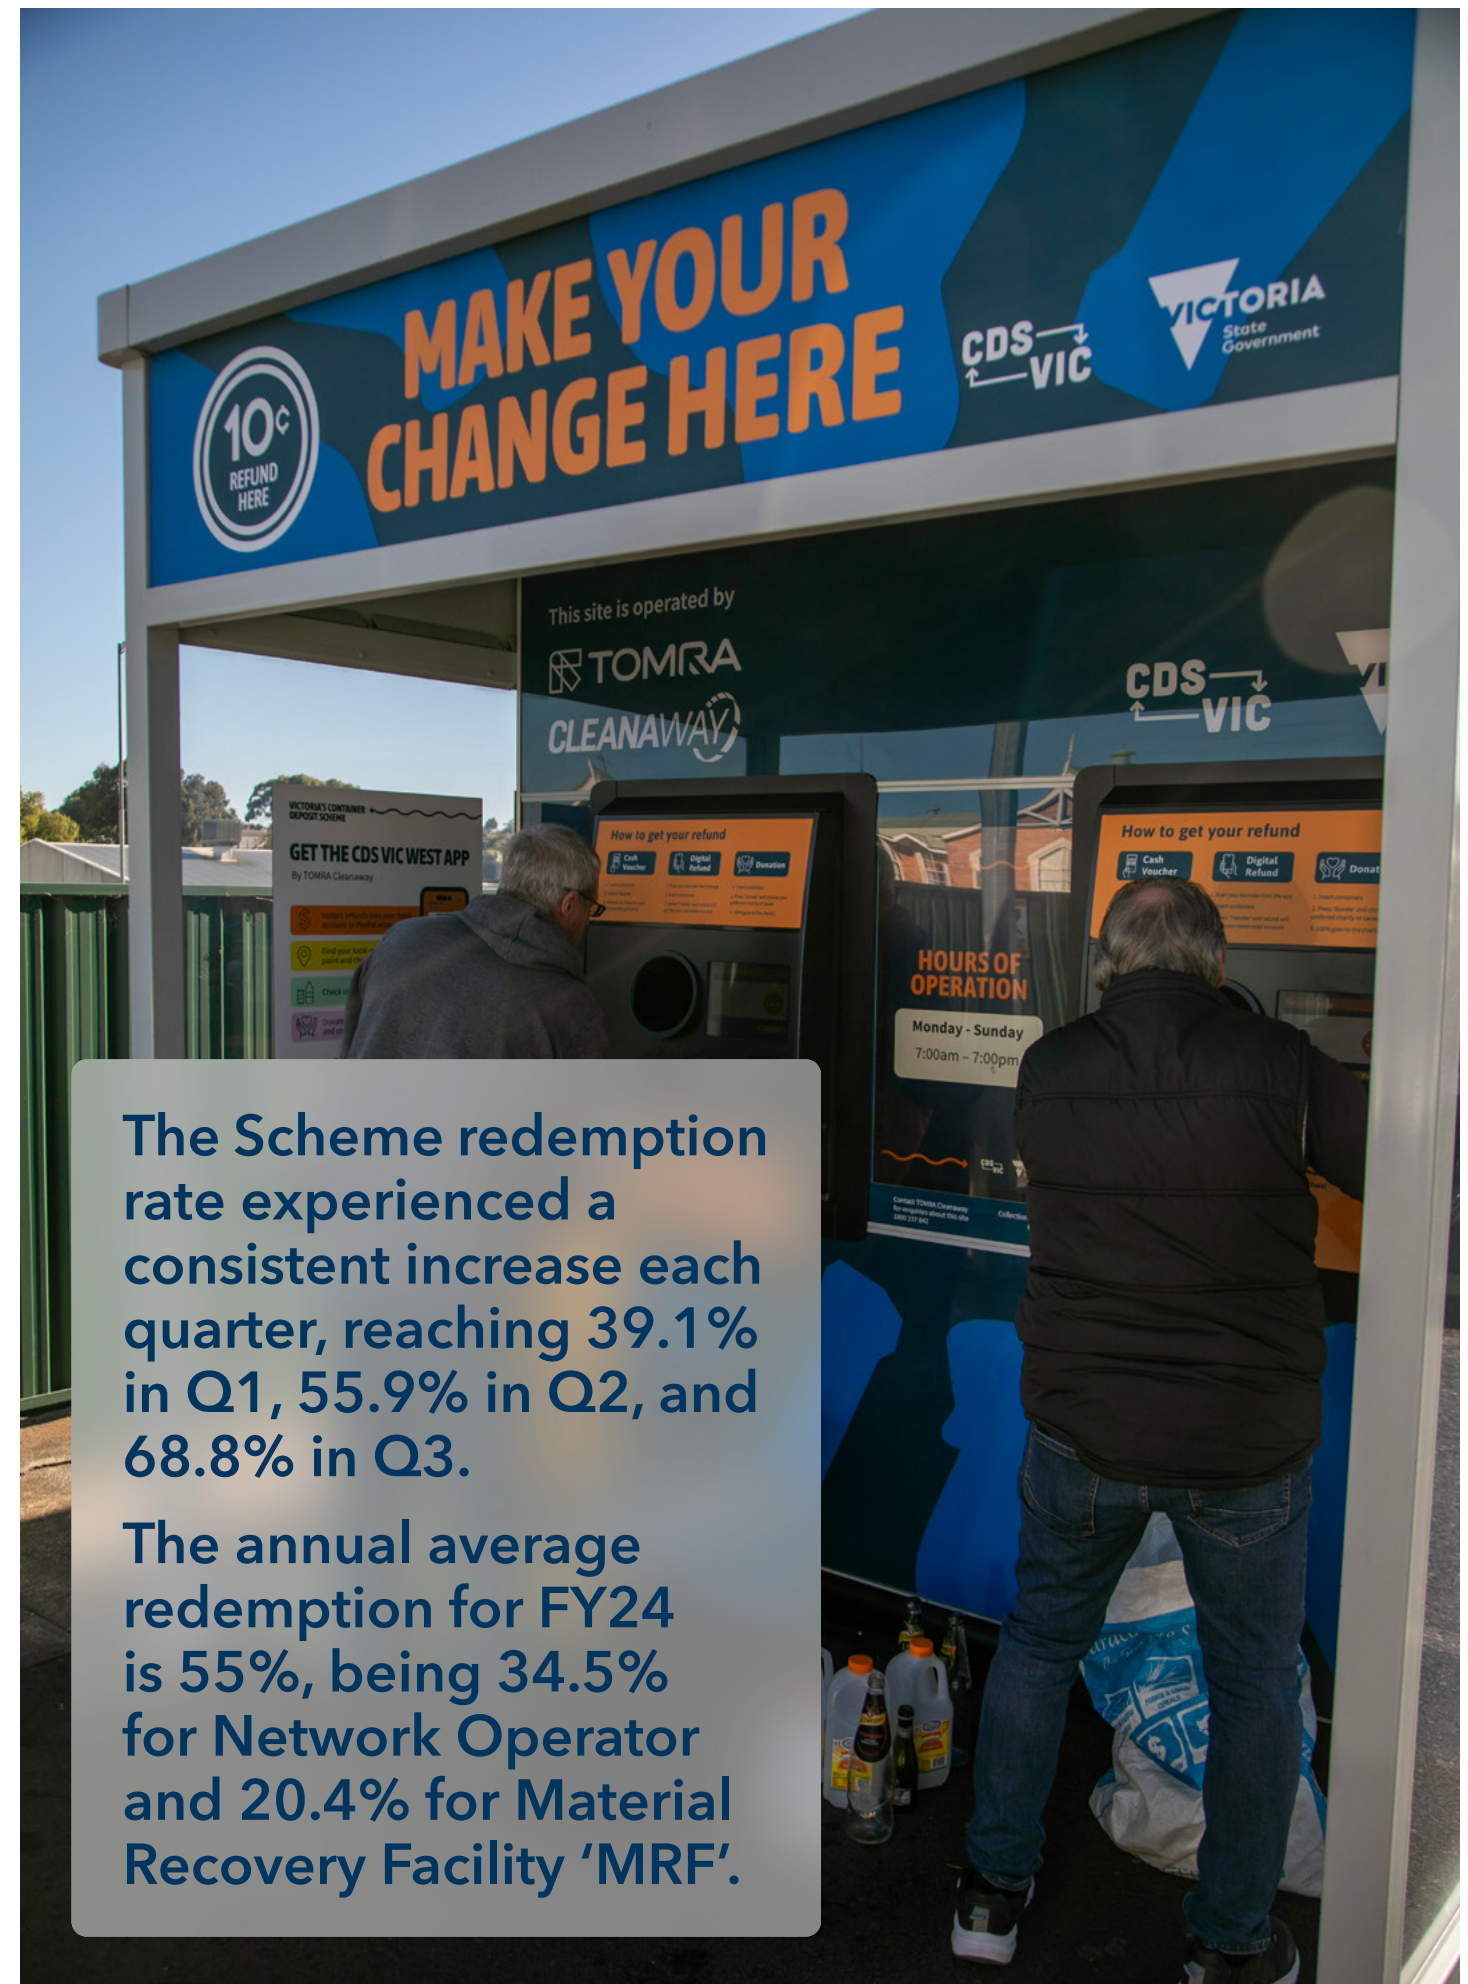

- This report is a summary of CDS Vic’s Scheme performance from 1 Nov 2023 to 30 June 2024.
- It is a collaboration between VicReturn, Network Operators and various Scheme participants.
- The report meets the obligations to provide an Annual Statutory Report under the Scheme Coordinator Agreement.

Contents

1.	Scheme Redemption Rate	6
2.	First Suppliers, Network Operators & MRFs	8
3.	Social Benefit	20
4.	Audit & Risk	24
5.	Financial Year Assessment	32

1. Scheme Redemption Rate

The Scheme redemption rate experienced a consistent increase each quarter, reaching 39.1% in Q1, 55.9% in Q2, and 68.8% in Q3.

The annual average redemption for FY24 is 55%, being 34.5% for Network Operator and 20.4% for Material Recovery Facility 'MRF'.

2. First Suppliers, Network Operators & MRFs

Purpose & Objective

The following sections highlight all reporting obligations that VicReturn has in relation to First Suppliers and Network Operators.

First Suppliers

- At 30 June 2024, there were 626 Supply Arrangements in place, with a further 20 awaiting signature.
- In 2024, First Suppliers contributed a total of \$218.2* million to the Scheme.
 - A breakdown of the cumulative costs per suitable eligible containers material type can be found on page 10.

Network Operators

- Across all zones, the Network Operators stood up a total of 692 sites that were active at some stage throughout the first year operation: 62 depots | 394 OTCs | 236 RVMs - the number, type and names of these locations can be found on slides 12-17. A further breakdown, inclusive of Zone allocation, can be found in Appendix A - Sites.

- In total 628.2m containers were collected weighing a total of 30,734.8 tonnes. A breakdown of this figure, by material type, can be found on page 18.
- In aggregate, Network Operators sold a total of 573.5m containers (28,467.9 tonnes) of scheme material in FY24.

Material Recovery Facility (MRF)

- A total of 10 Recovery Agreements were signed with 14 claiming sites. The entities have been paid twice since Scheme commencement.

*Figures represent the invoiced GST Excl. value

Scheme Costs paid by First Suppliers

Material Type	Total \$	Contribution per Container	Volume Share (%)
Glass	\$37.3m	11.40c	17.1%
Aluminium	\$93.5m	11.05c	42.8%
PET	\$72.9m	11.15c	33.4%
HDPE	\$1.3m	11.15c	0.6%
Liquid Paper Board	\$12.5m	11.50c	5.7%

Total Suitable Eligible Containers collected by Network Operators

Material Type	Number Collected	Weight
Aluminum	314.6m	4,260.7T
Glass	111.5m	21,686.9T
PET	185.7m	4,456.4T
HDPE	3.2m	88.2T
LPB	10.1m	141.4T
Steel	0.9m	28.3T
Other Plastics	1.1m	23.0T
Other Material	1.0m	49.8T
Total	628.3m	30,734.8T

Volume is as per VicReturn data and weight is calculated using factors provided by Network Operators.

Total Suitable Eligible Containers sold by Network Operators

Material Type		
Aluminum	Sold#	302.2m
	Weight	3,964.8T
Glass	Sold#	118.9m
	Weight	20,892.9T
PET	Sold#	151.7m
	Weight	3,592.3T
HDPE	Sold#	0.7m
	Weight	18.0T
Total	Sold#	573.5m
	Weight	28,467.9T

All figures on this slide have been provided by the Network Operators.

Where do the containers go?

Recyclers

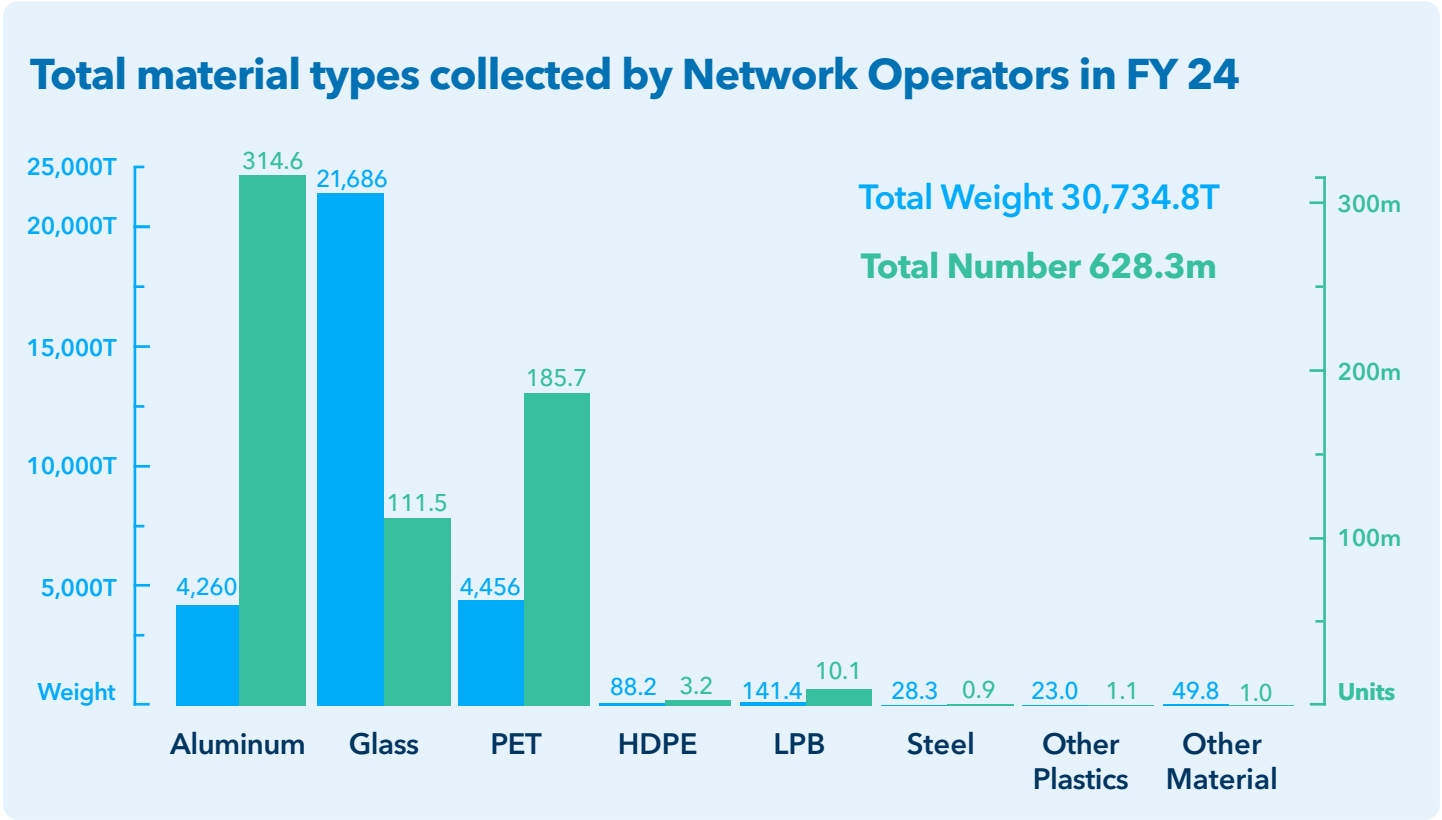

Network Operators and MRFs manage the sale of containers to recyclers. VicReturn has formalised arrangements with the Network Operators and with participating MRFs to manage this process.

Network Operators sold a total of 573.5m containers (28,468 tonnes) in FY24 ensuring the proper recycling of our used drink containers.

The type of material recovered by Network Operators

The most common material recovered through the Scheme was aluminium. Aluminium amounted to more than half of all eligible material, with PET plastic the next closest at 30% – almost twice the amount as glass (18%). Most glass, plastic and aluminium have circular container to container/ high end recycling outcomes.

- 100% of glass was recycled domestically in Victoria and South Australia
- 100% of PET plastic was recycled domestically
- 100% of aluminium was exported and recycled overseas

3. Social Benefit

Purpose & Objective

The following sections highlight all reporting obligations that VicReturn has in relation to Social Benefit.

Job Creation

- 597.6 jobs have been created as a direct result of CDS Vic.

Community Engagement Outcomes and Scheme Awareness

- The Community and Partnerships Team has undertaken a range of engagement and relationship building activities, including face-to-face and online meetings and presentations. Details of community engagement outcomes and Scheme awareness can be found on page 22.
- Results from the March 2024 research dip showed that awareness, participation and advocacy was strong.

Refund Amounts Donated to Donation Partners

- 1,584 Donation Partners received a donation refund as of 30 June 2024, totaling \$457,125.30.

Community Engagement and Scheme Awareness

Community Outcomes

22 presentations (online & in person), total audience of 1,371

102 meetings with partners and key organisations

Built a partner list of more than 65 unique organisations, total audience of 1.6 million

22 Electronic Direct Mail (eDMs), total audience of 333,866

Scheme Awareness

90% of Victorians had heard about CDS Vic

36% Victorians currently participate in the Scheme

95% of Victorians who currently participate said they would likely participate in future

96% of participants said they would be likely to recommend the Scheme to others

Handling fees totalling \$9 million have been paid to collection point operators that are charities, community organisations, social enterprises, or other not-for-profits.

4. Audit & Risk

Purpose & Objective

The following sections highlight all reporting obligations that VicReturn has in relation to Audit & Risk Practices.

Governance and Risk Management

- A description of arrangements made by VicReturn in relation to Government and Risk Management can be found on pages 26 and 27, respectively.

Fraud Management

- The tools that VicReturn has implemented in the prevention, detection and management of Fraud can be found on page 28.

Protection of CIC & PI data

- Arrangements made by VicReturn in relation to Commercial-in-Confidence (CIC) & Personal Information (PI) data can be found one page 30.

Governance Management

VicReturn is governed by a written constitution that:

- outlines VicReturn’s purpose;
- authorises the Board of Directors to manage and lead VicReturn; and
- reserves certain decisions for VicReturn’s Members (Lion, Asahi Beverages and Coca-Cola Europacific Partners).

As a registered not-for-profit company, VicReturn’s constitution and list of directors are publicly accessible on VicReturn’s Australian Charities and Not-for-profits Commission (ACNC) profile page. Profiles of each director are accessible on VicReturn’s public website.

The Board’s composition is set by the Scheme Coordinator Agreement, including an independent chair and independent director approved by the State, representatives of small and major beverage suppliers, and gender and diversity targets.

The Board comprises non-executive directors only and meets on a bi-monthly basis. The Board employs a Chief Executive Officer to manage VicReturn’s operations, including employing VicReturn’s executive team.

The Board has established a governance framework that is benchmarked against the ACNC’s Governance Standards and industry best practice, comprising a Board Charter, Delegation of Authority, Legal Compliance Framework and Risk Management Framework.

Under the Board Charter, directors must adhere to the highest standards of professional ethics, transparency and integrity.

Risk Management

Risk management plays a critical role in understanding and managing risks and uncertainties in the design and operation of the Scheme, safeguarding Scheme funds, protecting people and the environment, and building and maintaining public trust and ongoing adoption.

VicReturn has led the design and implementation of the Scheme Risk Management Framework, in alignment with the International Risk Management Standard (ISO31000: 2018). The Scheme Risk Management Framework is made up of several components designed to effectively manage risk, including the:

- Scheme Risk Management Policy
- VicReturn Risk Appetite Statement
- Strategic and operational risk identification and management
- Allocation of resources and accountabilities for Risk Management activities
- Risk-based assurance program to validate and test controls
- Business continuity plans to support incident response and recovery.

As the Scheme evolves, so will the risks and opportunities both within and outside its operating environment.

VicReturn will continue to reflect the current and future uncertainties that have the potential to impact the Scheme by actively managing and updating the Risk Management Framework and the instruments and work programs that it guides, in consultation with Scheme participants.

Fraud Management - Fraud and Corruption Control

VicReturn is committed to ensuring the integrity of Victoria’s Container Deposit Scheme. In collaboration with Scheme Participants, VicReturn has established a Scheme Fraud and Corruption Control Plan in line with the Australian Standard: Fraud and Corruption Control 8001-2021.

The Scheme Fraud and Corruption Control Plan articulates VicReturn’s approach to preventing, detecting, and responding to the risk of fraud and corruption throughout the Scheme. Key elements of the Plan that exist across the Scheme include:

- Fraud and corruption risk identification and management
- Fraud and corruption training and awareness to key personnel
- Conflict of interest and gifts, benefits and hospitality procedures
- Fraud and corruption whistleblowing and investigation processes
- Data analytics techniques to detect fraudulent transactions.

In our active and ongoing commitment to Scheme integrity, a number of fraud-related incidents relating to container deposits have been identified. These have either been resolved or are currently being investigated.

All participants across the Scheme are committed to preventing and detecting any instances of fraud or corruption, regardless of materiality.

Data Protection

Identification

VicReturn’s identification of the assets that need protection, the associated risks, and the system vulnerabilities that might be exploited is crucial for maintaining an effective cybersecurity posture.

Protection

VicReturn is aligning with Victorian Protective Data Security Standards (VPDSS) and Australian Cyber Security Centre (ACSC) Information Security Manual (ISM) standards to ensure proactive protection measures are in place. This includes using antivirus software, firewalls, and intrusion detection systems, as well as implementing critical practices such as data encryption and regular vulnerability patching.

Response

VicReturn’s cybersecurity response plans will encompass regular backups, disaster recovery, and business continuity plans. These measures are designed to ensure that operations continue with minimal disruption in the event of a successful cyber attack.

5. Financial Year Assessment

Purpose & Objective

The following sections highlight all reporting obligations that VicReturn has in relation to financial year performance.

Revenue

- FY24 Scheme revenue of \$220m is outlined on page 34.

Expenses

- FY24 Scheme expenses can be found on page 35.

Scheme Revenue

All Scheme contributions paid to the Scheme Coordinator under any supply agreement	Any interest earned on contributions	Other sources of income	Total Scheme Revenue
\$220,422,444*	\$455,772 **	\$0	\$220,878,216

* All values are per VicReturn’s Jun-24 unaudited Profit and loss (P&L) statement. The P&L includes accruals for ‘First Supplier Contributions’

**Interest on Scheme bank account only, not administration account

Scheme Expenses

Total amount of network fees paid by the Scheme Coordinator to Network Operators	Total amount of refunds paid by the Scheme Coordinator to Network Operators	Total amount paid by the Scheme Coordinator to Material Recovery Facility operators	State Service Fee
\$65,840,048	\$57,105,337	\$35,209,798	\$6,330,933
Container Exports	Scheme Administration Fees Expense	Other Direct Expenses	Total Scheme Expenses*
\$10,247,651	\$18,974,072	\$916,522	\$194,624,360

* All values are per VicReturn’s Jun-24 unaudited P&L. The P&L include accruals (estimates) for ‘State Service Fee’, MRF Fees and ‘Container Export Fees’ due to timing

Noted Exclusions

The following has been excluded from this report.

Reduction in litter

This report does not address the reduction in litter outcomes, as the Scheme is still in its early stages and an adequate source for baseline comparison is yet to be established. This will be a major focus in next year’s report.
